Subject: Passaic CAG

On July 9, EPA participated in the Passaic River CAG meeting to discuss the schedule of the lower 8 miles 95% remedial design - the design was supposed to be due August 2020 but moved to May 2021, the upper 9 miles interim actions, including the feasibility study (discussing the difference between all the cleanup alternatives) and project schedule and information on the upcoming CSTAG meeting. EPA also presented on Riverside Industrial Park's proposed plan and upcoming public meeting. Liz Balladares ambassador from the lower Passaic River urban waters federal partnership spoke about talked about cag and partnership to team up to reach out to unresponsive land owners and to increase their level engagement - those with properties with valuable information but haven't provided that information to agencies to help with the design of the cleanup.
